INSTITUTIONAL DISTINCTIVENESS

- The institution is situated in the coastal stretch of south west part of India, where majority of the population is from fishermen community. The institution was established with a primary objective to enhance the educationally and fiscally backward population living in this region. Moreover, a good number of seats under management quota are reserved for fishermen community students.

- This is one of the rare institute under government aided colleges, which caters the financially backward population by means of providing aided courses alone, where the financial backwardness of the population does not allow the pupil to go for selffinancing courses.
